

Janus Henderson Anemoy

AAA CLO Fund - JAAA

The tokenized Janus Henderson Anemoy Fund (JAAA) seeks to provide investors with a portfolio of high-quality CLOs delivering risk-managed access to an asset class that can provide consistent risk-adjusted returns and low correlation to traditional fixed income asset classes while exhibiting low volatility with low downgrade risk.

Overview

- Fund shares are issued in tokens either directly on the Centrifuge Chain or the supported chain of investor's choice (Ethereum, Base, Arbitrum, Celo, and more)
- Subscription & redemption in USDC and other stablecoins
- Open ended BVI licensed fund for non-US Professional Investors
- AAA-Rated Collateralized Loan Obligation Exposure
- Daily subscriptions and redemptions, settlement usually T+1 or T+2

Characteristics

High Quality Access - JAAA provides access to AAA-rated CLOs historically available only to institutional investors with the lower cost, transparency, and liquidity characteristics of the ETF structure.

Disciplined Process - Our rigorous CLO manager due diligence and portfolio construction process seeks to provide consistent risk-adjusted returns and low correlation to traditional fixed income asset classes.

Experienced team - Three portfolio managers with 60+ years combined experience, supported by a Global Securitized team managing \$65 B of assets globally, as of 31 January 2026

1. Compelling yield potential	2. high-quality	3. Diversification

Risk/Liquidity Profile

Enabling Qualified Investors to earn a risk-adjusted rate superior to current marketplace earnings.

Risks

The value of investments and the income from them can fall.

Collateralized Loan Obligations (CLOs) are debt securities issued in different tranches, with varying degrees of risk, and backed by an underlying portfolio consisting primarily of below investment grade corporate loans. The return of principal is not guaranteed, and prices may decline if payments are not made timely or credit strength weakens.

CLOs are subject to liquidity risk, interest rate risk, credit risk, call risk and the risk of default of the underlying assets.
